The American Hebrew

Cover the following news paper in Hebrew Letters first.

חקהש רש ליסרקר פסור „קו גק שׁרשנקד

وشطاشزث شقث مث قشرذشهست [قخبث

Jorge Luis Borges from the American Hebrew side for the Jewish Heritage in New York working on mathematics and literature and even Judaism for years with Edna Aizenberg in Argentina and an exceprt on his speech which he now does in free style and clear speaking ethics and is also proficient he declares in to meet Jewish Young Prophet Sirohi.

We mean Edna here – What is Judaism and newspapers all about?

Jorge Luis Borges – infinity of course. I also mean a love for the Jewish proficient Paul.

Gershome Scholem on Newspapers and How to be Well Read like Sirohi.

I mean in fact just be well read in one sentence works.

Above all follow the newspaper as then full of them.

Now I mean form it like you form and unform Antiquity and Feudalism in Jewish history of that type Sirohi calls fun unformed Jewish speaking.

Isiah and Isikiel

Now for the news, I argue Palestine is free and we are free and it is all a Jewish community with God in the sky in Israel. I also love the Quranic gestures from Sirohi to Khomeini and Arafat on Quranic accounting as perfection and exact in logic. Now logician habits are important to cover science more and more let us say freely and for more scientific points. We argue let us be poetic or naïve to be free to admit this frees us a lot. Glad the Arab world is exact in logic. It seems like poverty and ethics, but is also aware of a bourgeois class which is free to cover life in Europe and Arab countries both. We prefer India though we all say.

Shomit Sirohi

Finally we have covered a lot in Biblical studies and I argue Judaism is Kabbalah, Talmud and Torah and it is basically a line and all its segments and I also mean so many lines and so many literary criticism arrows and circles. I mean just be free and cover this news in the precise sense Christopher Hale from Jewish Heritage of New York in fact along with Moishe Postone in India at the moment who is a Marxist cover it all in the sense of militant lines in that Marx manner –

Developments of history

History and Israel contemporary news

Labour and Hebrew Labour

Accounts perhaps and company history recently.

Mathematics therefore and sciences.

Figurations and all their Isiah Berlin like sayings or Martin Luther King.

I mean also Quran.

I mean finally be very elementary and cover the news as Resnae would and be with Sabbath. I mean speak in that fashion called by him Jewish Aramaik which is a Marxist in fact method of sounding Jewish abstract. Thank you.

Now Jewish New York Heritage thanks Isiah and Isikiel for the news and cover how much interpretation there is needed. We argue it is all Marxist and proficient from Moishe's side who is going crazy covering this as Sirohian Marxism in fact. He argues it is not Marx that produces this logic. It is some Trotskyist Marxism. So be militant then in Jewish ways instead.

Now squares to cover it all in games.
